Takapau Water Treatment Plant Upgrade Community Drop in Meeting

We're holding an open evening to update the community on Takapau Water Treatment Plant Upgrade.

This is a great opportunity to come and learn more about what we are doing to respond to resident concerns, ask questions and to raise any other issues you may have.

Background

The Takapau water supply is taken from a deep bore (40 metres) located at the end of Meta St. Water is Treated and pumped into the reticulation and into a 230m³ reservoir at the intersection of Sydney Street and SH 2.

Through #thebigwaterstory, Council heard your concerns regarding water quality and in particular, manganese and iron resulting in 'dirty' water.

The Contractor

Council is pleased to advise our new maintenance contractor Veolia ANZ Ltd are the head contractor and will be undertaking the design and construction work on behalf of Central Hawke's Bay District Council.

Project Milestones

Design to be completed:	end of May 2019
Construction to commence:	June 2019
Construction completed:	end of August 2019
Commissioning:	September 2019
