2. Important notes to person making a further submission:

A. Content of further submission

A further submission must be limited to a matter in support of, or in opposition to, an original submission. A further submission cannot introduce new matters that were not raised in original submissions.

Please note that your further submission (or part of your further submission) may be struck out if the authority is satisfied that at least one of the following applies to the further submission (or part of the further submission):

- it is frivolous or vexatious
- it discloses no reasonable or relevant case
- it would be an abuse of the hearing process to allow the further submission (or the part) to be taken further
- it contains offensive language
- it is supported only by material that purports to be independent expert evidence but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

B. Serving a copy of your further submission

A copy of your further submission must be served on the original submitter within 5 working days after it is served on Council (See table on following page).

C. Privacy Information

Council will make all further submissions, including name and contact details, publicly available on Council's website. Personal information will also be used for the administration of the submission process and will be made public.

Heretaunga Tamatea Settlement Trust		S120.010	RLR PXX	Support	The Tukituki Water Security Project is looking to rescope the needs of the Tukituki catchment by firstly prioritising an improvement in the health of our rivers and our people, give effect to Te Mana o te Wai and increase community resilience in the face of climate change. Specifically, this means assisting Tangata Whenua, and in particular the marae and hapu strongly associated with the Tukituki catchment with their intentions to restore key water bodies like Lake Whatuma, and to also maintain river flows within the Tukituki catchment during periods of extreme drought. The Steering Group overseeing this project has commissioned a report that is in the process of being finalised. Previous work has identified the Makaroro gorge as being a key regional asset for water storage, and this policy should remain intact at this time. It is important that all options remain available to address water security, and ensure a range of measures can be applied to ensure future generations of Central Hawke's Bay citizens can enjoy living in one of New Zealand's best living environments.
