PO Box 2083
Wellington 6140

Phone: +64 21 445 482
Email: rebecca.davies@nzdf.mil.nz / AGifford@tonkintaylor.co.nz

The New Zealand Defence Force (NZDF) has military interests throughout New Zealand. Within the Central Hawke's Bay, NZDF does not operate any facilities. However, this does not preclude the potential for NZDF to need to expand or establish new facilities in the district in the future. NZDF may also undertake temporary military training activities (TMTA) in the district from time to time. NZDF undertakes TMTA across the country as part of its function of maintaining its operational capacity and nation's security, as well as providing for the well-being, health and safety of communities.

The New Zealand Defence Force (NZDF) represents a relevant aspect of the public interest¹.

A detailed further submission is attached.

NZDF **does** wish to be heard in support of its further submission. If others make a similar further submission, NZDF will consider presenting a joint case with them at the hearing.

A copy of this further submission has been sent to each person who made the original submission.

¹ Set out in section 5 of the Defence Act 1990

Attachment 1: NZDF Further submission table

#	Original Submitter's Name	Number	Support or Oppose	Section Reference	Reason for support or opposition	Decision Sought
1	Horticulture New Zealand	S81.068	Support	NH-R2	The inclusion of 'structures' in the rule wording provides clarity that the rule permits both buildings and structures.	Accept the submitter's relief sought with the following addition to the rule description: 'Any new building <u>or structure</u> or alteration to an existing building <u>or structure</u> within a Natural Hazard area.'
2	Federated Farmers of New Zealand	S121.137	Support	NH-R2	As above	Accept the submitter's relief sought, as above.
3	Horticulture New Zealand	S81.069	Oppose	NH-APP1	NZDF considers the BIC table in the PDP, with the additions to include TMTA (refer submission reference S29.016) to be the most appropriate way to assign categories as it provides a greater degree of detail.	Reject the submitters relief as sought.
4	Z Energy Ltd, BP Oil NZ Ltd, Mobil Oil NZ Ltd (the Oil Companies)	S110.009	Support	HAZS-R1	NZDF agrees with the Oil Companies submission point relating to permitted activity condition a. The effect of the proposed condition a, which requires all underlying zones standards to be complied with, will be that resource consent will also be required for the storage, handling and use of hazardous substances under rule HAZS-R1 if there are unrelated breaches of zone standards (e.g. noise, lighting) on the same site.	Accept the submitter's relief sought or include permitted activity standards specific to the storage, handling or use of hazardous substances within rule HAZS-R1.
5	Horticulture New Zealand	S81.098	Support	NOISE-S1	Measuring noise at the notional boundary rather than the site boundary is appropriate for sites in the Rural Lifestyle Zone given the potentially large size of these properties with dwellings located a significant distance from the site boundary.	Accept the submitter's relief sought.
6	Kāinga Ora - Homes and	S129.141	Oppose	NOISE-S5	It's not clear if the submitter seeks the entire deletion of standard NOISE-S5 or just Noise-	Reject submitters relief sought if it relates to the deletion of all of

#	Original Submitter's Name	Number	Support or Oppose	Section Reference	Reason for support or opposition	Decision Sought
	Communities				S5(24). If it is the deletion of NOISE-S5 this is opposed as it is appropriate to exempt certain activities from compliance with noise standards.	NOISE-S5.
