Hi Claire,

Sorry for the delay in getting back to you. I am also working on finalising my notification assessment and recommendation for the current application and am hoping to be able to come back to you later today or tomorrow with confirmation on that decision.

I agree with what Phil has said in relation to the amended proposal. We would also consider that this is best dealt with as a new application and the existing application should be withdrawn or suspended if an application for the alternative proposal is advanced.

Kind regards

Paul

Paul Barrett

Subject: RM200204 and APP-126012, alternative site to investigate

Phil and Paul,

The additional odour analysis that was required to answer the queries from PDP has lead the applicant to consider repositioning the proposed facility to the south of the existing site, as indicated below.

In order to understand the effects of the proposed facility at this alternative location, we seek that the applications (RM200204 and APP-126012) be put on hold so that there is time to prepare the assessment. We would remain in contact and provide updates to you both, to demonstrate progress. This request to put the application on hold is made so that withdrawing the applications can be avoided.

We hope you see the practicality in this request.

Please let me know if this request is accepted, and cc Cam and Michael in your responses.

Regards
