Financial assistance for the construction of stock underpasses will be in accordance with New Zealand Transport Agency policies. The applicant for construction of a stock underpass will pay the local share remaining after any financial assistance is received from the New Zealand Transport Agency. The project must be identified as part of Council's Roding Programme and at the beginning of each LTP funding cycle.

If the stock underpass is no longer required then the owner must remove it at their expense and reinstate the road to the Council's satisfaction.
