NATURAL ENVIRONMENT VALUES	ECO – Ecosystems and Indigenous Biodiversity	Oppose	our family set aside trees to be harvested in the future to pay for infrastructure and improvements and harvest rights to those trees will be taken away the effective seizure of an asset without compensation. huge limitations to what we can do through those areas will hinder our future proofing with water storage.	Scrap the mapping done. Work with farmers instead of hindering them. Help to create plans for sustainable harvest

CONTACT

My Submission is based on all SNA's in our area. As I believe this should be a voluntary process by land owners and have a system set in place to compensate them for loss of assets and opportunity to realise these assets.

As well as this I believe that all the SNA's that have been marked on our property are wrong and don't meet the criteria of an SNA as in all these areas our family have modified these areas by us planting and draining them over the last 4 generations.
