General	[General]	Oppose	I am very happy with status quo,more government involvement on the stretched resources on farm and potential for more new clauses to be added to the SNA reform further down the track is of major concern.If these areas were to come under different ownership (in time)it could have a devastating effect on farm equity positions and banking perimeters through a simple piece of legislation that is not required and another pointless use of resources.	I oppose the SNA plan and believe CHB farmers do an outstanding job of protecting special ares and the use of qe2 covenants without having government enforcement on our local councils
