

From 2 August 2021

Waipukurau your Rubbish and Recycling kerbside collection day is changing!

A message from Mayor Alex and the Council Team

Kia Ora Waipukurau

During the Long Term Plan consultation process, you gave us feedback on the way we manage Rubbish and Recycling services in Central Hawke's Bay – and we've listened!

It was clear from the start – our community understands the aspiration of our campaign to be Waste Free CHB, and that we have a goal to increase the amount of recyclable material which is diverted from going into our landfill.

As a result, changes to Council's solid waste services will come into effect across the District from 2 August, 2021.

We have increased how much you can easily place at the kerbside for collection by including a third crate for cardboard and paper waste to the kerbside recycling collection for Waipawa and Waipukurau.

To make sure our crews can get around and pick up all your recycling each week we have also made some changes to the collection zone. Look out for whether your household is in the new PINK or YELLOW zone to determine when your Council kerbside Rubbish and Recycling is collected. You can check what zone you fall into from August 2, 2021, on our map on Page 3.

We are also extending kerbside recycling collection to the rural communities of Otāne, Takapau, Tikokino and Ongaonga with their existing drop-off centres being transitioned into rural recycling trailers, that frequent different areas of the District on a regular basis.

We are very proud and excited to be making these changes for the better of our communities, and thank you for your feedback and suggestions on future proofing Rubbish and Recycling services in the District.

Let's move forward together on our journey towards a thriving and Waste Free CHB!

Ngā mihi

Alex Walker

Mayor of Tamatea/Central Hawke's Bay

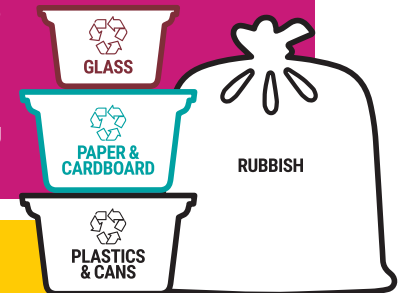

Waipukurau will now be split into **PINK** and **YELLOW** zones – but what does it mean?

From 2 August, 2021, the day of kerbside collection for your Council Rubbish and Recycling will change. For residents in the **PINK ZONE**, it will now be a Monday, for the **YELLOW ZONE** it will be a Tuesday.

Please refer to the map in this brochure to find out what zone you are located in.

On Mondays

Kerbside Rubbish and Recycling will be collected from residents located in the **PINK ZONE**. If you're zoned **PINK**, put your Rubbish and Recycling out to the kerb by 7.30am on a Monday. Starting Monday 2 August 2021.

On Tuesdays

Kerbside Rubbish and Recycling will be collected from residents located in the **YELLOW ZONE**. If you're zoned **YELLOW**, put your Rubbish and Recycling out to the kerb by 7.30am on a Tuesday. Starting Tuesday 3 August 2021.

We've listened and we are making the following changes to your Rubbish and Recycling services

In the Long Term Plan 2021 - 2031 we consulted on a number of changes and options for the future of our Rubbish and Recycling services. Council have now confirmed a plan to future-proof solid waste in the District and will be rolling out the following changes, from 2 August, 2021.

Additional Recycling Bin

As part of the kerbside recycling service changes, we've added a third recycling bin for paper and cardboard. Previously we provided only two bins – one for glass and another for everything else.

Extension of Kerbside Recycling

Council has introduced as part of the Long Term Plan 2021 - 2031, kerbside recycling to the rural communities of Otāne, Tikokino, Ongaonga and Takapau. This service starts from 2 August and will be a great addition to supporting the vision of a Waste Free CHB!

Replacement of rural Drop-Off Centres with Mobile Recycling Trailers

With the introduction of kerbside recycling, we are expecting demand for the existing rural drop-off centres to change. As part of our service offering, we will no longer be providing the existing drop-off centres in Otāne, Tikokino, Ongaonga and Takapau. This service will instead be replaced by mobile trailers that will frequent rural areas of the District on a regular basis. These changes will come into effect once the new rural kerbside Rubbish and Recycling service is running smoothly. This includes being able to service areas of the District, that rural drop-off recycling centres have never been able to reach before.

Rubbish Bags to Wheelie Bins in 2023

Through the Long Term Plan 2021-2031 process we heard from you that our current refuse bags are not the easiest or most practical to use. When given a choice of using a bag or a wheelie bin, you told us you would prefer a wheelie bin. From 2023 Council will provide a wheelie bin refuse collection service, instead of rubbish bags, to the townships of Waipukurau, Waipawa, Otāne, Tikokino, Ongaonga and Takapau. The cost of this wheelie bin will be covered by your rates, and will be a similar cost to the existing bag service.

You will still be able to buy rubbish bags beyond 2023, and dispose of these for FREE at Transfer Stations, however kerbside collection will no longer be available.

The important things for you to know:

From Monday 2 August 2021:

Your kerbside collection day for Rubbish and Recycling will depend on the zone you fall into: **PINK ZONE** collection is now a Monday, for the **YELLOW ZONE** it will be a Tuesday.

There will be three crates:

Red – for glass

Black – for plastics (1,2 and 5) and cans

Teal – for cardboard and paper

Remember:

- Crates need to be by the kerbside by 7.30am.
- Please place the crates closest to the kerb/road edge, without blocking footpaths.
- Make sure it is clean – wash, squash and take lids and tops off plastics and glass.

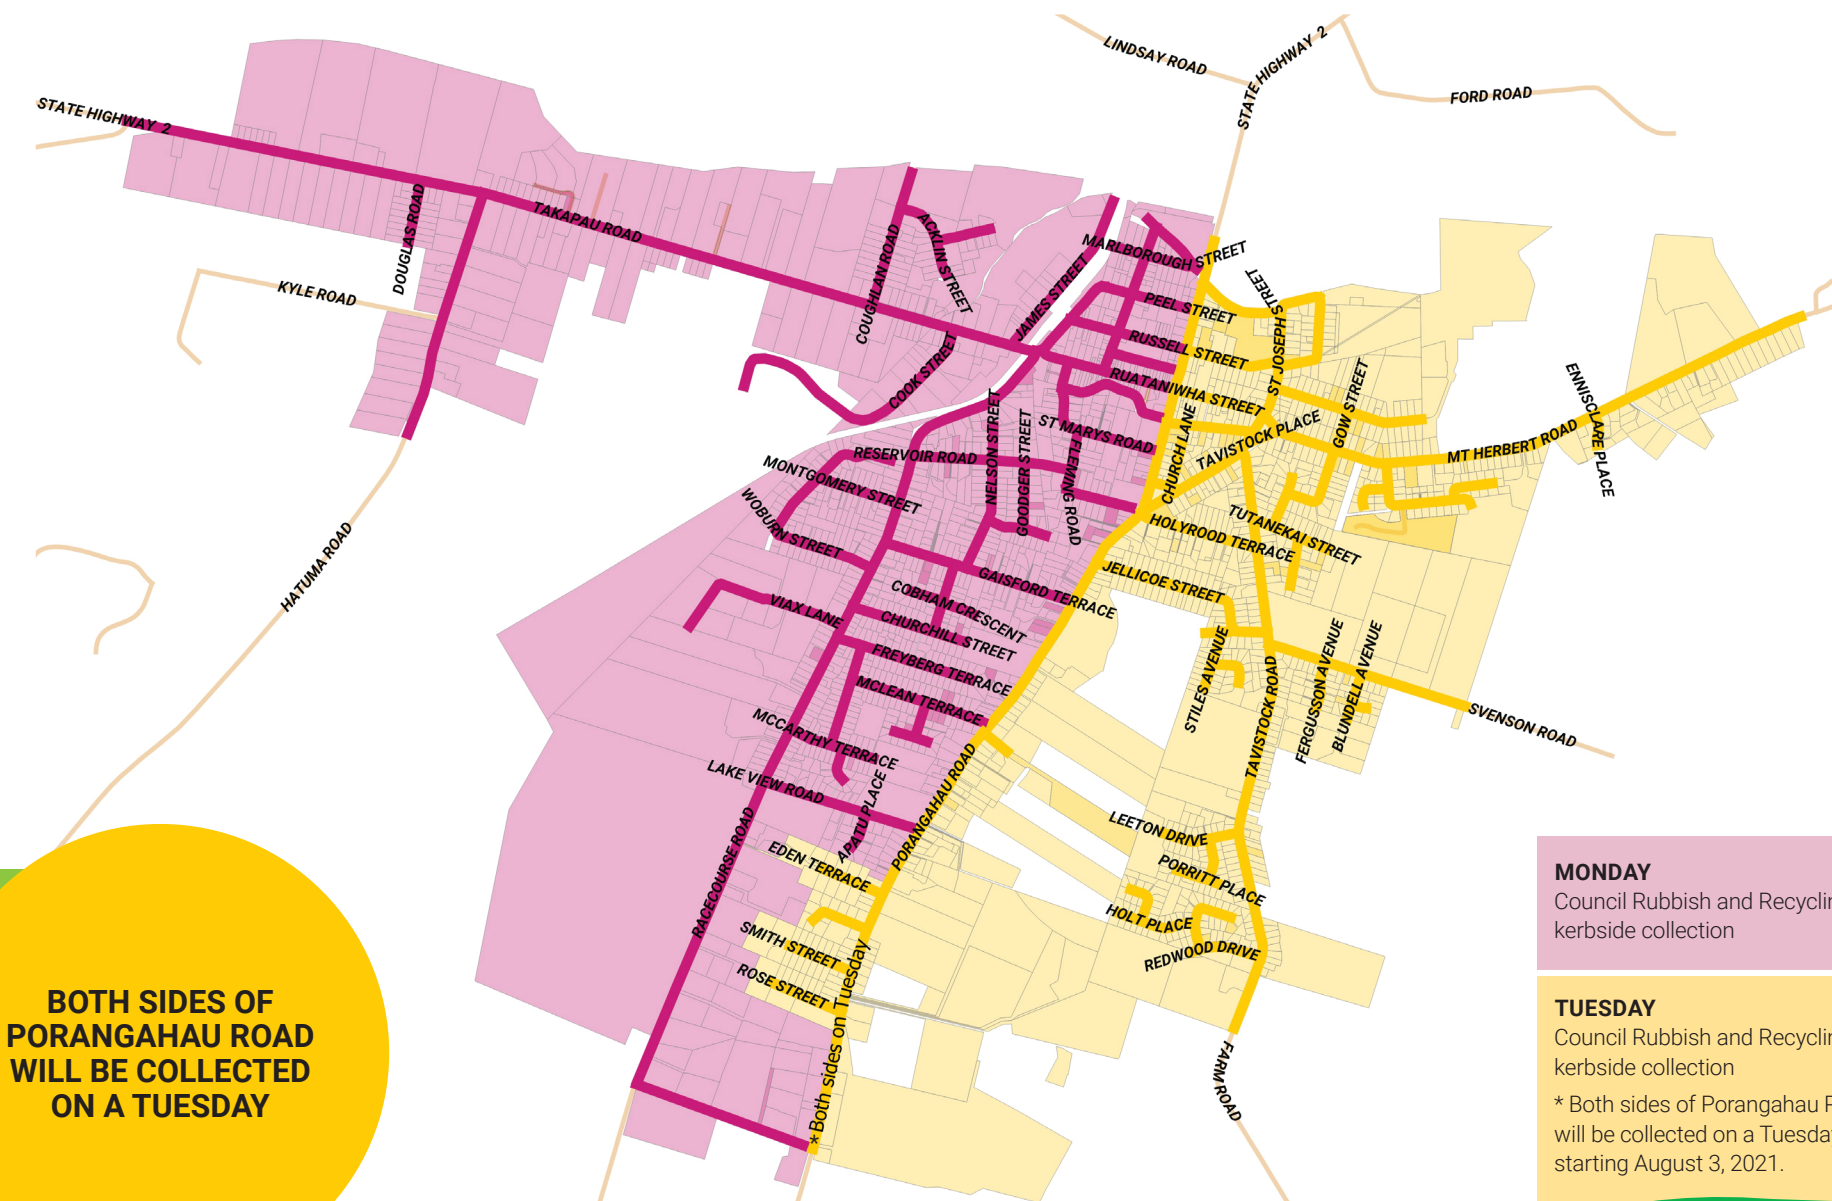

Why are your zones changing?

- The demand for recycling in Waipukurau is increasing, thank you for doing your bit!
- As Waipukurau continues to expand, new routes will make room for greater efficiencies of service.
- We're looking after the health and safety of contractors as we accommodate the increase in kerbside recycling.

To find out what we consulted on during the Long Term Plan 2021 - 2031, visit our website: www.chbdc.govt.nz and search Long Term Plan 2021 - 2031.

For further information please call us on 06 857 8060 or head to www.chbdc.govt.nz and search #wastefreechb

Here are a few tips to help your Recycling collection run smoothly...

- Crates must be kerbside by 7.30am on your designated collection day; If you are in the **PINK ZONE** this will be a **MONDAY**, for those in the **YELLOW ZONE** it will be a **TUESDAY**.
- Please ensure your items are **rinsed/washed clean**.
- To ensure your recycling is able to be processed, it is important that the correct items are placed in the correct Council crate. The red crate is for uncapped glass; the black crate is for plastics (1, 2 and 5) and rinsed cans, the teal crate is for cardboard and paper.
- **Remove all lids** before recycling.
- Make sure you only have approved items in your crates, refer to your 'Recycling Made Easy' guide or see our Waste Free CHB online hub for guidelines.
- **Flatten/collapse cardboard** before placing **within** the teal crate. Extra items can be taken to the recycling drop-off centre.
- If your crate includes **non-recyclable items or rubbish, it will not be picked up**. For example: wrapping plastic, polystyrene, children's toys, aerosol spray cans, takeaway coffee cups, soft plastics, nappies, tetra-packs ie: milk and juice cartons.
- The crates belong to your property and must remain with the property when you move.

Following Waste Free Wendy's tips will ensure all crates are picked up on your designated collection day.

Hi, I'm Waste Free Wendy. I'm here to help make recycling easy – tune in for more info on your new **PINK** and **YELLOW** zones on the Council Facebook page @CHBDistrictCouncil.

For more ideas on how you can reduce your waste, check out the Council's Waste Free CHB online hub at: www.chbdc.govt.nz and search #wastefreechb.

Let's work together to be Waste Free CHB!
