

**CENTRAL
HAWKE'S BAY**
DISTRICT COUNCIL

PERMITTED CATEGORY CONSENT

Application Process

PRACTICE NOTE TW07

This Practice Note is part of a series of notes developed to assist with the use and implementation of the Central Hawke's Bay District Council's Trade Waste Bylaw 2021.

When is a trade waste consent application required?

All premises intending to discharge or discharging wastewater of a non-domestic nature to the wastewater system, must apply for permission to discharge trade waste.

Why is a trade waste application required for a permitted category?

Permitted trade waste dischargers need to apply to Council, so that your situation can be assessed to make sure it meets the requirements of the Permitted category. Council will keep a register of Permitted trade waste so inputs into the wastewater system are understood.

How do I apply to discharge permitted trade waste?

Premises which consider their trade waste to meet the requirements of the Permitted trade waste category should use the Permitted application form, found on Council's website in the trade waste section.

The application fee must be paid before the application can be accepted.
